Something New For Painters

We have now a combination, in the proper proportions, of pure white lead and zinc. It is

MICHIGAN SEAL WHITE LEAD

Being ground and mixed mechanically the combination of the two materials is much more thorough than when done by hand. It is put up in steel kegs which prevents absorption of oil, keeping the lead in perfect condition. The kegs are light and have a handle, making a handy paint bucket. It is a well known fact among painters that white lead and zinc in proper proportions is the best material for this climate.

Electricity ARBOR DAY

Honolulu Schools Set was made by Forester Ralph S. Hos-Out Many Young Trees.

Arbor Day was generally observed yesterday by the public schools, and many of the private schools joined in. It was the first Arbor Day in Hawali, and the students were enthusiastic over it. Many of the schools went into the tree planting with special ceremony; others carried out the plan decided uphalf of them thrive, the school grounds have been beautified to some extent.

exercises held at the High School at toes and salads. 1 p. m. The seniors planted a class tree. The exercises opened with the assembling of the pupils in the large hall. Principal Scott made an address, following an introductory song. Mr. Scott spoke along lines suggested by Presinities offered in the islands for beautifying the surroundings of schools and

Then followed the planting of a bread fruit tree in a circle in the lawn makai of the building, the planting being done while a song was rendered by four hundred voices under the direction of Mrs. Yarndley. Governor Carter referred to his

school days. The school children, he us put an over-coat-a coat of said, had their own future and that of their country in their hands. The fifteen or twenty thousand school children of Hawaii could accomplish much if they but put themselves to the task. On his asking each class what country it considered the best and what school the best in the Territory, there was a generally unanimous response that the United States was at the head, and that the High School was about the only closed with Hawaii Ponoi.

At the Kaiulani School the following program was observed:

1. The origin of Arbor Day, address by Mrs. Frasher, principal. 2. An appreciation of J. Sterling Morton, originator of the idea of Ar

bor Day. Room 10. 3. Arbor Day. Room 13. 4. Song, "Sleeping Trees," Rooms 1, 2, 3, 4 and 5.

5. Recitation, "Woodman, Spare That Tree!" Room 9. 6. Local historical trees, Room 12. 7. Some famous trees. Room 13.

8. Song, "The Kiawe Trees," Rooms 6 and 7. 9. Quotations, Room 8. 10. Song, "Under the Tree," Room

The above occurred indoors. The out-

door program is as follows:

Song for Arbor Day, Room 8. "Recitation, "Arbor Day," Room

3. "What Plant We in the Apple Tree?" Room 11. 4. Song, "Sports of Childhood," Room

The Golden Shower will be a new tree for the Kauilani grounds. The tree's colors (gold and green) are also

the school colors. At the Royal School a large number of trees were set out. The school grounds offer exceptional opportunities for tree planting, being at present with-Residents of Hawaii Territory and out shade in many portions. AT OAHU COLLEGE.

The Arbor Day program as outlined by the trustees of Oahu College was carried out yesterday in College Hills. The main avenues of this school have been divided into seven sections, in each of which one kind of tree will be planted. The selections of trees, made largely through the advice of Sup rintendent F. S. Hosmer and Forester Haughs, include poinciana regia, yellow peinciana, eucalyptus robusta, Monterey cypress, grevillea and Java plum The college furnishes the 500 trees that will be necessary to plant the avenues, superintends the planting of them, and agrees to take care of those planted it front of unsold lots. As the greatest nterest has been shown by practically very one in College Hills, there is no doubt that the trees will receive good care. One of the owners yesterday expressed himself as very much pleased with the project, saying that it would greatly increase the beauty and value of all the property in the tract. The first tree was planted at 4:30 at the corner of Kamehameha avenue and Pangerous prograt or sent de tour agent de tour man de tour man de la corner of Kamehameha avenue and sampe for Particulars. Testimonials sold to the following the tree was planted in each section. The tree was planted in each section. The tree was planted in each section. The

grown in the nursery at the college under the direction of Superintendent Frank Barwick, are ready for planting. They will be put in now as rapidly as

At the Normal School appropriate xercises were followed by the planting in each grade. Fruit trees were generally chosen. An excellent address

IN KALIHI VALLEY.

Interesting Arbor Day exercises were held yesterday at Kalihi-waena schools. Mr. Hosmer was chairman. Trees were planted under the direction of Miss Georgia Allen, principal of the school. Mr. Allan Herbert made a short address, in which he complimented Miss Allen for her efficiency, and stated that Mr. Hosmer, Mr. Hawes, Geo. Smith, Prof. Perkins and Prof. Koebele had done more for the islands than the salary of the men for the balance of their natural lives would on by the Department of Education. amount to even if they lived to be as As a result a forest of young trees old as Methusaleh. Adjournment was were set out yesterday and even if only then had to Waielele. Mr. Herbert's home, and a luncheon was served of things grown on his place. The meau was: Chicken consomme, roast capon. MATSON LINE EXPANDS.

It is reported that while East, Capt. William Matson purchased a big steamer, which is now on the Atlantic side of the United States. The steamer is said to be 400 feet in length, or eighteen feet longer than the Enterprise. She carries 200 tons more freight, and has a speed of 12 knots per hour, while the Enterprise is a 9-knot vessel. The new steamer, which saw service in Cuban waters under the Spanish flag, was sold at a Marshal's sale for \$45,650 to Captain Matson, who estimates that he will have to expend three times her purchase price in fitting her as an oil burner and for active service. Her machinery is in excellent condition, and the necessary improvements will be completed and the vessel ready for service by January 1, 1906. It is the intention to place the new vessel on the San Francisco-Honolulu run, returning to the Coast by way of Hilo. The S. S. Enterprise will be kept on her usual route between San Francisco and Honolulu, touching at Hilo each way. This will give the islands a regular two weeks' service between here and the Coast, and be able to furnish quick and regular transportation for the local fruit trade.

Capt. Matson also contracted for the purchase of another steamer for the Pacific Coast Oil and Transportation Co., in which difference to be paid to Bondholders he is heavily interested. He is now general traffic manager for the Pacific Coast for the Standard Oil Co., into which the former company has been merged.—Hilo Tribune.

THE NEW JAPANESE LINERS.
